Dear friends,

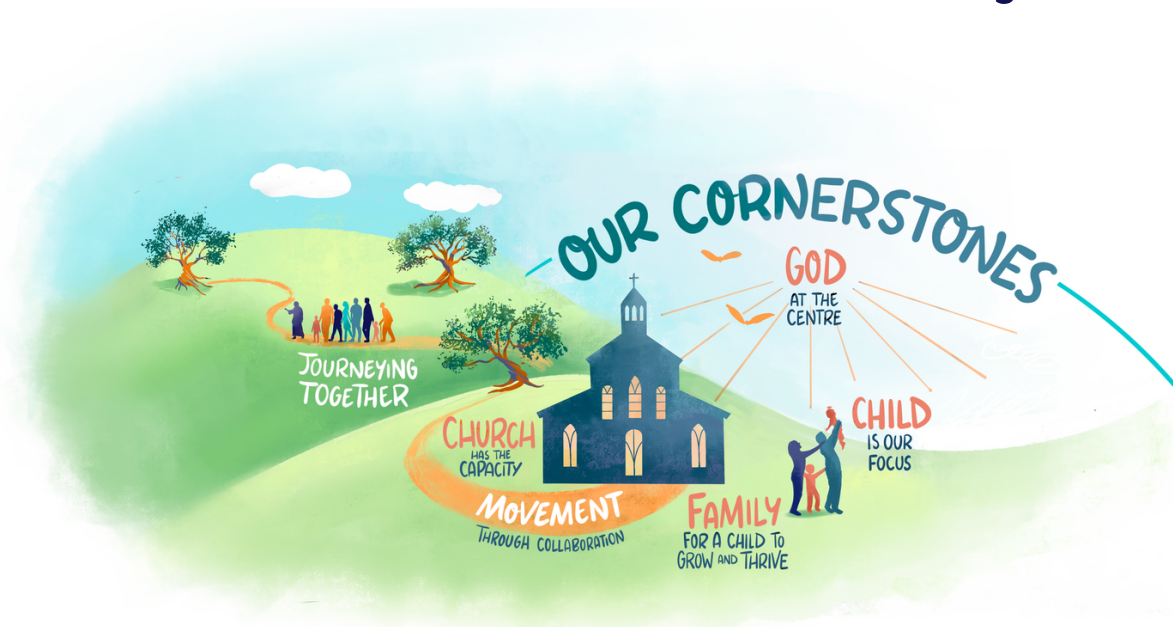

We are grateful to all who have supported us through another year of seeing the movement for a World Without Orphans grow across Europe, and we trust this snapshot will encourage you.

We are mainly grateful to our heavenly Father for the lives of families and children improved through the week-by-week work of our national teams and their partners in local communities and churches.

In continuing crises and difficulties, the numbers in this overview, and the many more not cited, represent the mercy of God experienced in individual children's lives.

We started 2023 by gathering for refreshment and equipping at a European Forum in Sofia, Bulgaria, and we entered 2024 looking forward to a Global Forum under the theme of 'From Crisis to Hope'. We pray hope will arise in you as you take a glimpse into our year of 2023.

Leading Coordinator

WHY WE DO WHAT WE DO

456,000

children live in residential facilities in Europe and Central Asia

294 per 100,000

children in residential care facilities in Western Europe: nearly triple the global average.

SEEING CHANGE

In Bulgaria and Moldova, family-based care has become the dominant formal alternative care arrangement.

OUR FOCUS AREAS:

Children with disabilities account between 4% and up to 87% of children in residential care facilities. This proportion increased between 2015 and 2021.

Children on the move in the EU: There is an increased use of residential care for unaccompanied and separated refugee and migrant children.

FEEDBACK

"I heard a lot of shocking information that reminded me how many orphans still live in orphanages. My heart is broken realising how many of them never got a chance for a new life as I did."

"Everyone was blessed, encouraged, and motivated to make a difference regarding the problem of orphans in Serbia."

"I want to make a plan on how to train on trauma informed care for those that work with kids."

"Traffickers prey on vulnerability. My role is to prevent vulnerable children from being preyed on."

"I learnt that healing from trauma IS POSSIBLE."

"It was great for our own team to have this time together."

"I would like to try and start a national movement."

"I strongly recommend to have this session (Prayer & Counseling) in the next events which WWO will organize!"

"The training gave us alternative ways to deal with difficult emotions - a skill we desperately need as adults, teens, and children in our everyday lives. I will use it in my future work with children."
